MEMORANDUM FOR: Colonel White

15 October 1953

25X1A9a 1. The attached memorandum forwarded by Mr. [REDACTED] and signed by [REDACTED] of the Commercial Division and [REDACTED] of the Cover Division is not very helpful in that it does not discuss any of the actual points reached but simply indicates that we should be flexible. I believe there is some understanding to be gained by discussing these problems with the DD/P side.

25X1A9a 2. As a suggestion, I recommend that the matter be explored further with both [REDACTED] and then with [REDACTED]. If you agree, I will undertake this, working toward a statement of principles of criteria which would be applied against each case. At the present time I do not believe a regulation as such is the answer.

3. As part of the discussion with [REDACTED] on this, it would seem desirable to tie this matter in with a current review being conducted by I&R of proprietary projects. Their review might give some indication of the validity of some of the principles which are set forth as needing closer examination with respect to each particular case.
